APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit is issued subject to existing rights. It is understood that the amount of water herein granted is only a temporary allowance and that the final water right obtained under this permit will be dependent upon the amount of water actually placed to beneficial use. It is also understood that this right must allow for a reasonable lowering of the static water level. If the well is flowing, a valve must be installed and maintained to prevent waste. Accurate measurements must be kept of water placed to beneficial use. This source is located within an area designated by the State Engineer, pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

There are to be no perforations in the well for at least the first 1200 feet. The well is to be cemented from the 1200 foot level to the surface to protect fresh water zones.

This permit is further issued subject to the condition that the power or energy generated by the beneficial use of this water or steam is subject to recapture and use within the boundaries of the State of Nevada when the need arises.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed.....10.0.....cubic feet per second, but not to exceed 3620.0 acre-feet annually.

Actual construction work shall begin on or before.....January 14, 1979

Proof of commencement of work shall be filed before.....February 14, 1979

Work must be prosecuted with reasonable diligence and be completed on or before.....January 14, 1980

Proof of completion of work shall be filed before.....February 14, 1980

Application of water to beneficial use shall be made on or before.....January 14, 1985

Proof of the application of water to beneficial use shall be filed on or before.....February 14, 1985
